EXPERIENCE

RGS Recovery Management and Collection Services Inc.

Quezon City

Frontend Developer Intern

Oct. 2024 – Dec. 2024

- Applied HTML, CSS, JavaScript, and PHP to create responsive and visually appealing elements for a seamless user experience across devices.
- Developed and implemented interactive buttons and layouts, enhancing the website's user interface and navigation experience.
- Integrated functionalities into frontend components, optimizing user workflows and ensuring smooth interactions.

Sense Leads Electronics and Construction Corp.

Quezon City

Frontend Developer Intern

March 2025 - May 2025

- Developed and deployed the company's official website using React.js, ensuring a modern, clean, and maintainable codebase.
- Implemented a responsive and user-friendly UI to optimize the experience across desktop and mobile devices.
- Applied best practices in front-end development, including component-based architecture and performance optimization

PROJECTS

Dripstr

- Developed the admin module implementing full CRUD operations by fetching and managing data for efficient content administration.
- Collaborated in an Agile team environment, contributing to iterative development and regular sprint cycles.
- Used Git and GitHub for version control, managing branches and pull requests to maintain a clean and collaborative codebase.

Travel Go

- Designed and developed the frontend of the admin module for efficient management using modern web technologies.
- Implemented responsive layouts and user-friendly interfaces to enhance accessibility and usability.
- Collaborated with backend developers to ensure seamless integration of APIs and dynamic data handling.

Portfolio Website

• Designed and developed responsive project portfolio website with user-friendly UI to ensure user-centric interaction and to showcase my personal projects and skills using HTML, JavaScript, CSS, and Tailwind CSS.

EDUCATION

Quezon City University

Quezon City

Bachelor of Science in Information Technology

Aug. 2021 – Expected July, 2025
